POWERSHELL AUTOMATION WORKSHOP

Jeff Hicks

@jeffhicks
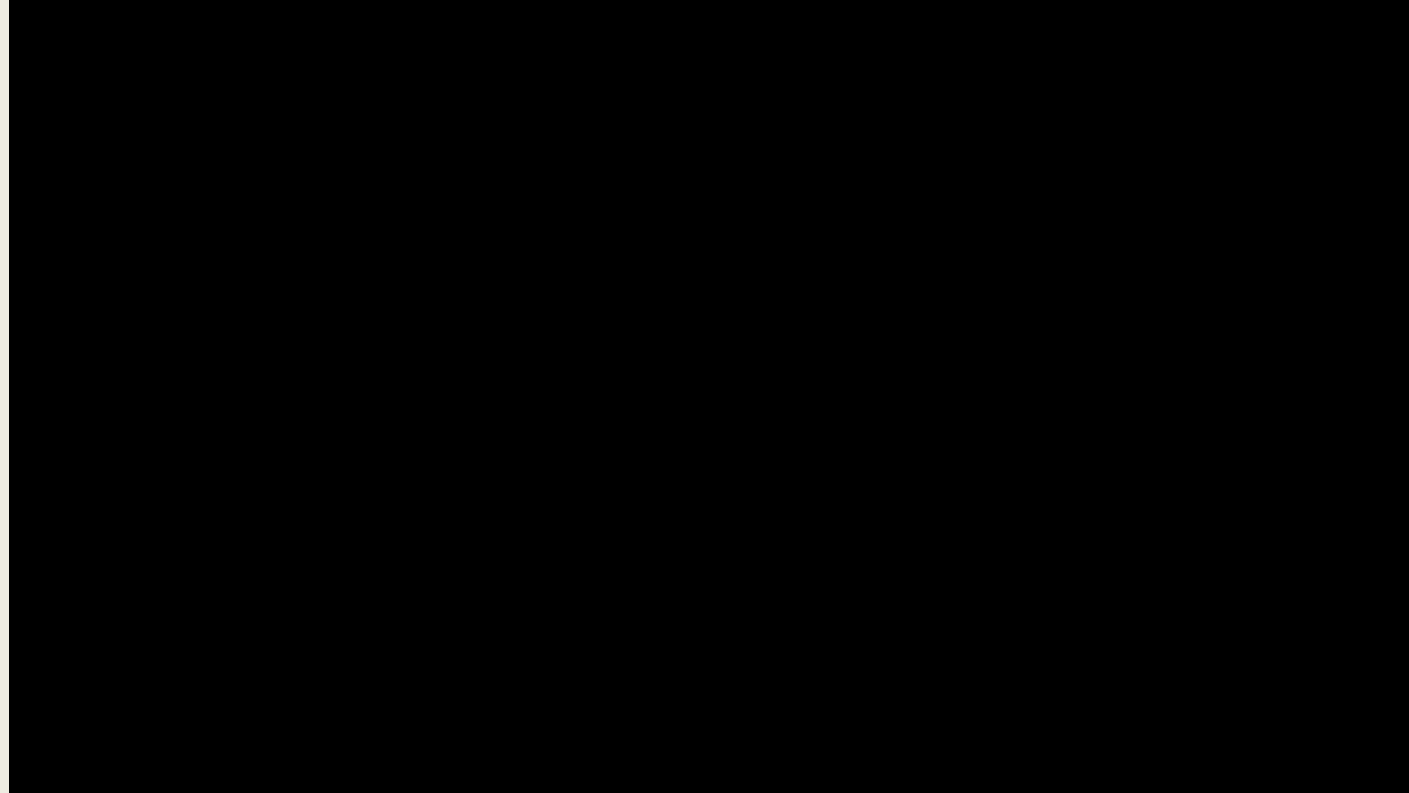

https://jdhitsolutions.com/blog

Agenda

- Why Automate?

- Creating Effective PowerShell Tools

- Automation Tools and Techniques

The Power of Practice

PowerShell is hard at first

It **will** pay off

You have to keep working with it daily

https://www.youtube.com/watch?v=0cF2LyYGDWA

Reference

- https://leanpub.com/powershell-scripting-toolmaking
- Buy it once, own it forever.

GUIDING PRINCIPLES

- "Managing at Scale"
- "Objects in the Pipeline"
- "One Task, One Command, One Object"
- Best practices and good security is assumed.

I can't teach everything

I can teach topics spontaneously if necessary

You must be involved

WE HAVE A DIRECTION BUT EXPECT ANYTHING

LET'S BUILD SOME AUTOMATION

Questions and Answers

What else do you need in your automation toolbox?

Thank You
